Danforth Graduate Fellowships are open to all qualified persons who have a serious interest in a career of college or university teaching and who plan to work full-time toward the Ph.D. or other advanced terminal degree in any field of study common to the undergraduate liberal arts curriculum.

These are very selective awards. Approximately 55-60 fellowships will be awarded to college seniors who are nominated by campus nominating committees across the nation. Another 35-40 awards will be made to graduate students already in a Ph.D. program.

The foundation is currently making a special effort to bring qualified persons from racial and ethnic minorities into the profession of teaching. Approximately 25 percent of the awards are expected to go to Blacks, Mexican-Americans, Native Americans, and Puerto Ricans.

Applicants for the baccalaureate awards must be college seniors or recent graduates who have not undertaken graduate-level programs of study. The deadline to seek information about the campus nomination process is October 5, 1979. The Graduate Record Examinations should be taken on October 20 (application deadline is September 24) or December 8.

THIS NOTICE IS FOR YOU—

-unless you're 100% confident and comfortable with yourself. Fact is, almost all college students need to take a second look at how they study. Most employers pass up applicants who just "got by" for students who "got their act together" before graduation day.

Sure, studying's a drag, but you can get it done more effectively in less time—if you try. The Study/Survival Skills Center is where you can find out how. No hassles, no "bull." Just ways to make your grades show up better, so you can party more and worry less. Don't "write it off"—check it out. It works.

PRIVACY ACT

The college will assume the right under the provisions of the BUCKLEY—PELL Amendment, to provide directory information at its discretion. Directory information is defined as the student's name, address, telephone listing, date and place of birth, major field of study, participation in recognized activities and sports, height and weight of members of athletic teams, dates of attendance, degrees and awards received , and the most recent, previously attended educational agency or institution.

Students are hereby advised that should they prefer that any of the information which would normally be considered directory information not be published or released, they will notify the Office of the Dean of Student Affairs, prior to October 1, 1979.

CAREER INFORMATION FAIR

Due to some students' lack of awareness of helping facilities available to them on Salisbury State College campus, two Career Information days are planned for September 19 and 20 from 10:00 a.m. to 2:00 p.m. in the College Center.

The purpose is to inform students of the existence of learning centers, student organizations, employment, housing, and academic facets organized here to assist them.

We ask that all students take the time to stop by the Student Center on the above dates to inquire about our facilities. Even some of our most promising students can benefit from learning centers, organizations, and an awareness of a particular department's true function.

Anyone having questions regarding the Career Information days may feel free to contact Leon Burks in the Admissions Office.

GENESIS TRAINING

The campus telephone counseling service, Genesis, will begin training volunteers for the Fall semester on September 15 and 16. Students interested in becoming a volunteer counselor may contact Kristi Elliott in 151 Holloway Hall. Genesis phone lines will open on September 17 and will remain open seven days a week from 7 p.m. to 1 a.m.

JAMAICA 1980!

The Department of Geography and Regional Planning is sponsoring a winter minimester academic field study trip to Jamaica from December 29 - January 11, 1980.

"Jamaica 1980!" is designed to allow students a rare opportunity to observe, analyze, and interact with a physical, cultural and economic environment much unlike their own. By understanding and experiencing what it "feels" like to live in a small, less-developed tropical country, the student will also gain a different perspective on what it means to have lived in a large, more-developed nation heretofore.

The approximate cost of the two-week trip is $675, which includes all airline flights, all meals, all lodging costs, and all transportation services on the island.

"Jamaica 1980!" will be conducted by Professor David Block of the Department of Geography and Regional Planning. It is open to all SSC students, but enrollment is limited. Applications are now available in Professor Block's office (209 Devilbiss, ext. 363).

TUBERCULOSIS SCREENING DUE FOR ALL FACULTY AND STAFF

Maryland now ranks 6th in the nation in the incidence of tuberculosis. Wicomico County is highest in the state, next to Baltimore City. This statistic may be due to better screening, or it may be that coastal areas are traditionally tuberculosis prone.

This is the year for all faculty and staff members of the college to be screened for tuberculosis. We do the tine test in the Health Center. It is a very simple and quick procedure. These tests will be done October 15 through the 29th at no cost. If you are a positive reactor to the tine test we will be glad to post you for a chest x-ray at the County Health Department, or you may make the arrangements for yourself. Ask that the report be sent to the College Health Center.

SGA

The Student Government Association will hold a General Board meeting this afternoon at 4:30 p.m. in Caruthers Hall, room 118. Some of the items on the agenda are the Academic Calendar, the Annual Report and Homecoming.

A survey was taken by the Student Academic Affairs Committee to determine student preference for changes in next year's Academic Calendar. For discussion will be the State Board for Higher Education proposal for increasing classroom instruction time.

Homecoming Committee chairperson Donna Bytella indicates there is plenty of work to be done for Homecoming. If you would like to volunteer your services to the committee, contact her or leave your name in the SGA Office.

The *Evergreen* yearbook held an interest meeting last week and chose the new co-editors. Serving in the leadership positions will be Vickie Corder and Kaye Hearn. If you are interested in photography, copywriting or yearbook layout, contact the co-editors in the Yearbook Office. Holloway Hall, room 213.

WANT TO SCORE HIGHER ON EXAMS?

By now every student has experienced his first series of exams this semester. Most of us "got by" so far, but many of us were surprised by some pretty low test scores. Regardless of the type of course, instructor, or exam, you can get help through the Study/Survival Skills Center.

But even if you did "OK" on your first few exams, is "getting by" good enough? Most employers don't think so. Whether you're an average or "A" student, the Study/Survival Skills Center can provide you with systematic methods for test preparation designed to help you score higher on your next exams so you won't have to cram and suffer the consequences.

LOCAL PROFESSORS INVITED TO NATIONAL ARCHIVES

Professors James M. Welsh and Thomas L. Erskine of the English Department accompanied by Professor Richard Keenan of UMES, attended a special program of "Documentary Film Classics Produced by the United States Government" Saturday, October 13, at the National Archives in Washington, D.C.

The program was organized by R. Kevin Flood, assistant director of the National AudioVisual Center. Scheduled speakers were John Houseman and Pare Lorentz. Mr. Lorentz, the American director who is probably best known for two documentary masterpieces, *The River* and *The Plow That Broke the Plains*, introducted two of his lesser known films, *Fight for Life,* a documentary about crusading obstetricians in the ghettos of Chicago in 1940, and *Nuremberg,* a 76-minute documentary about the Nuremberg Trials, produced by the U.S. War Department in 1946. These films and others were selected from the National AudioVisual Center's collection of 36 documentary film "classics" produced by by the government between 1934 and 1965.

Professors Erskine, Welsh, and Keenan are all three involved in the production of *Literature/Film Quarterly,* an academic magazine published by SSC. Mr. Welsh, who has published on documentary film techniques, noted that being invited to this National Archives screening program was particularly useful for future plans to mount a national conference on "Literature, History, and Film" at SSC in June of 1980.

MODERN LANGUAGES SPONSOR WASHINGTON TRIP

The Department of Modern Languages and Intercultural Studies is sponsoring a cultural enrichment trip to Washington, D.C., on October 26, to see a performance of Spanish dance by Maria Benitez and her troupe. The trip also includes a lunch of typical hispanic food at the LaFonda Restaurant.

The ticket price of $16.50 includes bus transportation, the dance performance and a complete lunch. For more information contact members of the Department of Modern Languages and Intercultural Studies.

PHYSICAL SCIENCE SEMINAR

Jerry Tubbs will be speaking on the topic of "Stars and Super Nova" Wednesday, October 24 at 4 p.m. in DSH 322.

There's a Way to Help the Handicapped...

It's natural to picture healthy, laughing children when we think of youngsters learning to swim at the Y ... to tie a knot in Scouts ... to learn a craft at summer camp.

There are some children, however, who haven't even mastered the skills of writing ... talking ... taking steps without falling. These children aren't so lucky.

But through programs for the handicapped, supported by your United Way contributions, these children have a greater chance of learning to write, to talk, to walk ... and maybe, eventually, to swim ... to tie a knot ... and to learn a craft.

It's a "People Helping People" effort. And it will continue to work as long as you continue to support it. There is a way...

The United Way.

THANKS! For Helping People...

Every year, millions of people in Maryland depend on services supported by your United Way contributions. If they could thank you personally, they would.

Because by giving to this annual voluntary effort, you have provided security for the aged ... therapy for the handicapped ... shelter for the homeless ... comfort for the sick.

If those whom you have helped could express their appreciation, you would be convinced your Fair Share gift is money well spent. Your gifts have made the United Way truly a "People Helping People" effort. And it will continue to be, as long as you continue to care.

On behalf of those you helped, we'd like to say, "Thanks, for helping people..."

HELP WANTED

Many campus individuals and organizations utilize posters and flyers to announce and advertise upcoming events. Unfortunately, in the process of placing posters and flyers on the doors, glass and walls of college facilities, such methods as thumbtacks, glue and scotch tape are utliized. All of these methods contribute to defacing the area and contribute to the deterioration of the facility. Therefore, it is requested that all posters and flyers be placed only on bulletin boards. Your cooperation will be greatly appreciated.

HEALTH CENTER NOW REQUESTS YOUR HELP!

The Health Center is always willing to help students in any way possible. There is one special service we give that seems to be either unappreciated, taken for granted or abused. That service is the lending of equipment such as crutches, heating pads, ace bandages, ice buckets and hot water bottles. Students are allowed to use these items to help promote their speedy recovery. Our problem is that when wellness returns the borrowed equipment either goes into the student's closet or gets passed along to someone other than the Health Center. The borrower is responsible for the article being used and is also responsible for returning it to the Health Center promptly.

At this time our supplies are very low and we have nothing to lend. In November, before the end of the semester, bills will be sent from the college business office, and grades will be held until the outstanding equipment has either been returned to the Health Center or paid for according to the following charge scale.

CRUTCHES	$10. per pair
HEATING PAD	$6. each
ICE BUCKET	75 cents ea. (includ. lid)
ACE BANDAGE	$1. each
HOT WATER BOTTLE	$3. each

GALLERY ART EXHIBIT

On view in the Blackwell Library Gallery, now through December 7, is a new type of art exhibition to the Eastern Shore.

Over 20 contemporary artists, selected from across the U.S., are showing work characterized only as highly skilled and intelligently involved in materials and the history of art. This show has been arranged to better display and explain these current trends in American art. Although it cannot be considered a fully representative show of all trends nor emerging artists, it is an attempt to give a forum of sorts to artists to show their work and to give us an opportunity to see such work.

U.S. ARMY FIELD BAND WILL PERFORM ON CAMPUS

The SSC campus will hear the best band music available when the United States Army Field Band of Washington, D.C., performs in concert on January 23, at 8 p.m. in Holloway Hall Auditorium sponsored locally by the college and WBOC.

Tickets for this performance may be obtained free of charge from the College Center.

The famous "Musical Ambassadors of the Army," the official touring musical representatives of the United States Army, have performed concerts in all 50 states, Canada, Mexico, the United Kingdom, Europe, the Far East and Central America. Since 1946, the Field Band has toured communities throughout the nation in two major tours annually. They combine new sounds with old, loud with soft, the fast with the slow. They make music with voices and instruments. They are two separate groups, yet they are one. They are a band and a chorus, and their sound is unique among military bands. Their music appeals to all age groups and spans the music spectrum from the classics to pop. Few musical ensembles present as varied a program as the Army Field Band and Soldiers' Chorus. Their versatility has has been praised by music critics and audiences around the world.

THEATRE IN REHEARSAL

A cast of eighteen enthusiastic students of the Salisbury State Theatre, having returned to the college early from their Christmas vacations, are preparing *The Mad Show* for opening on February 1 and continuing February 2 and 3.

Witty and tuneful songs have been added, written by Mary Rodgers, the daughter of Richard Rodgers and the mother of *Once Upon a Mattress.* The result is *The Mad Show,* which first opened for a long a successful run in New York in 1966.

The Mad Show—which uses the magazine's grinning idiot symbol, Alfred E. Newman, as a backdrop, is an explosion of insanity, a carnival of caterwauling idiots in frightful wigs who sing and scream utterly ridiculous things at the audience. But they also make an unsettling amount of sense.

Salisbury State Theatre's production of *The Mad Show* will be directed by Michael Goldsmith, a junior, who collaborated last season on the direction of the successful *Mosaic.* Outrageously witty sets for the production have been designed by Johnny Lee Pettegrew, who will also be doing the lighting, and Robert K. Cloyd is in charge of the costumes. Phyllis Oldham, long a favorite of Salisbury audiences who knows good music, is musical director, and Kim Gheen, a sophomore from Gambrills, Maryland, is in charge of choreography.

The cast of eighteen will perform *The Mad Show* only four times, February 1, 2, and 3, at 8:30 p.m., with a matinee performance on Sunday, February 3, at 2:30 p.m. Performances will take place on the stage of Caruthers Auditorium and ticket prices are $2.50 for students.

Beginning Monday, January 14, box office for the production will be open between the hours of 4 and 6 p.m. for sponsors and subscribers of the theatre only; on Monday, January 21, and thereafter the box office will be open during the same hours for the general public. Reservations may be made by calling ext. 498.

NOTES FROM THE ACADEMIC DEAN

Some professors include in their written absence policy a statement that a student must present a written excuse from the Health Center attesting to their illness. Other professors indicate they will need certification from the Office of the Dean of Students that the absence is officially "excused." Mrs. Rickert informs the Academic Dean's Office that the Health Center no longer issues excuses of any kind which relate to class attendance and has not issued them for several years. Likewise, Dr. Carol Williamson indicates the Dean of Students' Office issues to faculty **notifications of absence, not official excuses.** The purposes of the notifications are (1) to provide a service to students and faculty when the student's absence prevents her/him from contacting individual faculty prior to the absence and (2) to provide information to Student Life staff for hospital visits, letters of condolence, and other appropriate contacts with the absent student.

Absences of any nature are matters to be worked out between the professor and the student. There is no office on campus permitted to grant "excused" absences.

PLEASE ADD TO CAMPUS DIRECTORY — Carol Williamson's home phone number. Page 27. . . . 749-4113.

1980 FEDERAL SUMMER INTERN PROGRAM

A small number of outstanding undergraduate and graduate students nominated by their colleges will be selected by Federal agencies for employment in specially designed intern positions during the summer of 1980. About two-thirds of these summer intern positions will be located in the Washington, D.C. metropolitan area, and the remainder distributed throughout the country. The positions will be related to administrative, professional, or technical career fields for which a college degree is the usual means of qualifying at the entrance level. The grade levels range from GS-4 to GS-11, with weekly salaries from $193.20 to $396.40. The salary will depend upon the grade level of the position offered, which, in most cases, is commensurate with the qualifications of the student.

There are specific requirements for each intern position.

Nominees must have completed 2 years or 60 semester hours by June 1980 or be a current graduate student.

Undergraduates are required to be in the upper 1/3 of their class; graduate students must be in the upper 1/2 of their class.

Students must have demonstrated leadership ability. (Example: class officer or positions of leadership in other organizations.)

Students must be returning to school in the fall.

At the present time, we have only received openings for business and computer science students. We will notify other department chairmen as soon as we receive applicable intern vacancies.

If interested, please contact your department chairman or John H. Fields, Career Development Center, 151 HH.

CCPB PRESENTS SLIDE PRESENTATION "THE NAKED TRUTH"

Jean Kilbourne, noted media researcher, will give a slide and lecture presentation entitled "The Naked Truth," on Wednesday, February 6 at 8 p.m. in Holloway Hall Auditorium.

"The Naked Truth" consists of over 200 slides of advertisements, plus commentary, from a wide variety of magazines. The presentation examines ways in which advertising reinforces stereotypes and affects self-images. Although the focus is on the advertised image of women, the effect of this image on men is explored. One of the major goals of the presentation is to expand the dialogue between women and men concerning the damage sexism inflicts on individuals and in relationships.

Jean Kilbourne is a writer, teacher, and consultant who has been engaged for several years in research on the effects of the media, especially advertising, on women's and men's attitudes toward themselves and each other. She has discussed this topic on radio and television programs across the country, including NBC's "Weekend" and "Today."

Free student tickets are available at the College Center Information Desk and on the night of the presentation. Public tickets are $3.00.

MAYNARD FERGUSON CONCERT MARCH 12

Maynard Ferguson will bring his big-band jazz to the Eastern Shore this spring for a one-night only concert in the Talbot County Auditorium on March 12. The Ferguson sound is well known to jazz buffs and his soaring trumpet helped the "Rocky" theme fly to the top of the popular charts recently. Radio listeners have heard his version of the "Star Trek" music and the theme from "Rocky II" with increasing frequency in recent weeks.

Ferguson's appearances on the Dinah Shore Show, the Mike Douglas Show and Good Morning America have created new interest in jazz across the country, and his concerts at such sophisticated spots as the Newport Jazz Festival and Wolf Trap last summer left audiences cheering.

The Ferguson sound, a unique blend of jazz and pop music, has developed a style which has a strong appeal to the younger audiences, opening up a whole new world of music for them. Older listeners, who recognize his strong grounding in classical music and hear the influence of Stan Kenton, are also captured by his strong melody line and his trumpet virtuosity.

The March 12 Ferguson concert is sponsored by the Easton High School Band. All seats will be reserved and tickets will be sold in advance only. For further information, call 822-4266 during the day or 476-3931 in the evening. Tickets are $8 per person and are sold on a first-come, first-served basis.
